Connected Life Safety Services (CLSS)

Honeywell

WHAT IF

**YOU CAN VIEW YOUR FIRE SYSTEM
COMPLIANCE RECORDS
AT THE PRESS OF A BUTTON?**

**YOU COULD SEE WHAT HAS HAPPENED
ON YOUR FIRE SYSTEMS ON A
MOBILE DEVICE?**

**YOU COULD MONITOR
YOUR SERVICE PROVIDERS
PERFORMANCE?**

**YOU CAN ANALYSE LIFE CYCLE COSTS
OF YOUR FIRE SYSTEM WITH
SIMPLE REPORTS?**

**YOUR SERVICE PROVIDER
COULD IMPROVE SPEED TO FIX
– FIRST TIME?**

**YOU CAN MONITOR YOUR
WHOLE FIRE SYSTEM ESTATE
ONLINE?**

CLSS provides fast access to incontestable proof of compliance with mandated inspection and maintenance requirements, with full audit trail stored securely in the cloud.

CLSS delivers real-time operational information, enabling site managers to react quickly to incidents and take appropriate measures.

CLSS provides insight into scheduled system testing, inspection reports and inventory of devices.

CLSS provides simple reports of device age and health enabling site managers to spot and fix issues early, before they result in un-forecasted operational costs.

CLSS gives your service provider insight into your fire system enabling them to take a proactive approach to your fire safety by planning maintenance activities more effectively and understanding issues before they arrive on your site improving first fix rates.

CLSS enables you to have a holistic view of all your facilities, providing real time details of significant events such as fire, faults/troubles and disablements to ensure sites are operating effectively and meeting compliance requirements.

WHAT IS HONEYWELL CONNECTED LIFE SAFETY SERVICES?

CLSS places **connectivity** at the heart of fire safety systems, providing real-time **visibility** to drive timely, accurate decision making.

Enhanced **visibility** fuels intelligence, harnessing the power of data for safer, compliant and more efficient fire safety system management

VISIBILITY

CLSS provides enhanced visibility of real-time system performance, reducing un-forecasted operational costs while also ensuring quick and robust compliance reporting

CONNECTIVITY

CLSS' end-to-end, cloud-powered connectivity is the future of fire safety systems, providing new opportunities for building managers and partners to optimise on-site safety

INTELLIGENCE

Connecting control panels and devices with a new suite of cloud services, CLSS uses real-time intelligence to eliminate false alarms, unforeseen maintenance and other disruptive events that cut into the bottom line. Additionally, providing life cycle cost certainty of fire safety system assets.

Maintenance Certificate

17 Feb 2025, 09:47 AM

Customer: customer@trial.co.uk

Customer Name: customer@trial.co.uk

Contract No.: customer@trial.co.uk

Customer Details

Customer Name: University of Birmingham

Contract No.: 141728-000000

Issue Date: 17 Feb 2025, 17 Feb 2025

Rating Name: Maintenance Engineering

Address: 441 Edgbaston Road, Leamington, CV32 9TH

Contract Period: 14 Feb 2025 to 14 Feb 2025

Test Summary

Passed: 20

Failed: 1

Test Duration: 20:46

Disputed: 0

Contract Admin: Not Reached

Test Status: 1

Final Comment

One device was faulty

Tested By: Joe

Contract: Joe Rogers

Signature: [Signature]

PERFORMANCE INDICATOR			
Pre-Maintenance Check			
1. Language of Service	Yes	1. Is the language team satisfied that the customer will be able to understand the service?	Yes
2. Why did the customer contact the service?	Yes	2. What are the causes of faults or errors?	Yes
3. What are the maintenance options available to the customer?	Yes	3. Have any changes been recommended with facilities for improvement?	Yes
4. What are the reasons for the service being necessary?	Yes	4. Are there any reasons that the service may be of assistance to the customer?	Yes
5. What is the cause of the problem?	Yes	5. Have any changes to the service been recommended?	Yes
Visual Inspection			
1. Is the equipment visually damaged or defective?	Yes	2. Is the equipment visually damaged or defective?	Yes
3. What are the reasons for the equipment being damaged or defective?	Yes	4. Are there any reasons for the equipment being damaged or defective?	Yes
5. What are the reasons for the equipment being damaged or defective?	Yes	6. Are there any reasons for the equipment being damaged or defective?	Yes
Final Tests			
1. Is the equipment visually damaged or defective?	Yes	2. Is the equipment visually damaged or defective?	Yes
3. What are the reasons for the equipment being damaged or defective?	Yes	4. Are there any reasons for the equipment being damaged or defective?	Yes
5. What are the reasons for the equipment being damaged or defective?	Yes	6. Are there any reasons for the equipment being damaged or defective?	Yes
Service Equipment			
1. What are the reasons for the equipment being damaged or defective?	Yes	2. What are the reasons for the equipment being damaged or defective?	Yes
3. What are the reasons for the equipment being damaged or defective?	Yes	4. What are the reasons for the equipment being damaged or defective?	Yes
5. What are the reasons for the equipment being damaged or defective?	Yes	6. What are the reasons for the equipment being damaged or defective?	Yes
Post-Maintenance			
1. What are the reasons for the equipment being damaged or defective?	Yes	2. What are the reasons for the equipment being damaged or defective?	Yes
3. What are the reasons for the equipment being damaged or defective?	Yes	4. What are the reasons for the equipment being damaged or defective?	Yes
5. What are the reasons for the equipment being damaged or defective?	Yes	6. What are the reasons for the equipment being damaged or defective?	Yes
